EDUCATION

Bachelor of Arts, Natural Resources Economics (2014 – 2018)

Can Tho University, Can Tho 94000, Vietnam

- Thesis: "Valuing health risks related to the use of pesticides in agricultural production in Tam Binh, Vinh Long (Vietnam) using a choice experiment approach." (Thesis mark: 9.30 out of 10.00).

HONORS & AWARDS

Can Tho University – Dean's List Excellent Scholarship (2017) – Nominated as one of two best undergraduate students in Natural Resources Economics, based on performance indicated by GPA and extracurricular activities in the 2016/2017 a.y.

Scholarship of Vietnam School of Science (2019) – Recognised the excellent performance and participation in the 7th Vietnam School of Science held at Quy Nhon International Center for Interdisciplinary Science and Education (ICISE), Vietnam.

EMPLOYMENT HISTORY

Project Associate – Department of Trade, Investment Promotion, Vietnam Chamber of Commerce and Industry (VCCI) – Branch in Can Tho, Vietnam (May 2021 – Present)

- Worked under the project – Mekong Delta Resilient Business Network (MRBN).
- Did research into climate change's impacts on private sectors in the Vietnamese Mekong Delta, with concentration on saline intrusion and drought.
- Worked towards building the resilience and disaster management practices for businesses of the Vietnamese Mekong Delta.
- Managed and organized relevant workshops.
- Assisted in trade – investment promotion and entrepreneurship activities.

Research Associate – Department of Environmental & Resource Economics, School of Economics, Can Tho University (CTU), Can Tho, Vietnam (February 2018 – May 2021)

- Conducted and assisted in studies of agrifood – environmental economics.
- Managed and handled relevant administrative affairs.
- Designed questionnaires/experiments for relevant studies.

- Collected, processed, analysed, and managed research data for relevant projects.
- Prepared materials for submission to granting agencies.
- Prepared technical reports, and manuscripts for submission to scientific journals.
- Translated relevant documents (between English and Vietnamese).
- Co-supervised undergraduate students in their thesis projects.

Workshop Staff – RISE and FALL project, Department of Water Resources, Can Tho University, Can Tho, Vietnam (July 2019 – October 2019)

- Worked under the workshop “Groundwater dynamics and salt water intrusion in the subsiding Mekong Delta: Results from the RISE & FALL project.”
- Kept formal records of the workshop.
- Translated relevant documents (between English and Vietnamese).
- Supported and interpreted for group discussion sessions.
- Prepared the final report of workshop.

RELEVANT PROJECTS

Involved as project associate @ VCCI Can Tho:

- Project fully funded by UPS Foundation with supports from The Asia Foundation: “Resilient Business Network – Phase III” (2021 – 2022).
- Project fully funded by the Kingdom of the Netherlands: “Study on investment potential and investors: from business climate to knowing relevant investors” (Aug. 2021 – Nov. 2021).

Involved as research associate and/or lead research assistant @ CTU:

- CTU commissioned research: “Evaluating the current status of parking service in Can Tho University’s campus, and the economic feasibility of the new form of parking service” (Feb. 2018 – May 2018).
- Research project: “The application of experimental auction method: case studies of labelled products in Vietnam” (2018 – 2019).
- Project fully funded by Vietnam National Foundation for Science & Technology Development (ID: 502.01-2018.312): “Air pollution: How much do we pay for that silent killer? and will bus rapid transit (BRT) a viable solution for Vietnam’s cities?” (2018 – 2020).
- Project E-10, partly funded by Can Tho University Improvement Project VN14-P6: “Study the role of the informal sectors in municipal solid waste management system in the Mekong Delta, Vietnam” (2019 – 2020).
- Project fully funded by the Australian Alumni Grants Funds (ID: AAGF-R3-00176): “Project on assessing and promoting hygiene, safety, and bio-security practices for wet markets” (2020 – 2021).

RELEVANT WORKSHOPS *(Involved as staff and/or participant)*

- International workshop held by the RISE and FALL project – CTU: “Groundwater dynamics and salt water intrusion in the subsiding Mekong Delta: Results from the Rise and Fall project (UDW)” (October, 2019).
- Regional workshop held by the RISE and FALL project – CTU: “Improving the capacity of groundwater resources management in the context of subsidence and climate change in the Vietnamese Mekong Delta” (July 2019).
- Summer school held by Vietnam School of Science at ICISE Quy Nhon, Vietnam: The lectures given at the summer school cover essentials of science, research skills as well as selected studies in natural, social, and economic fields (July 2019).
- Workshop – Forum held by Mekong Organics & An Giang University, Vietnam: “The 1st Mekong Delta forum on developing partnerships between Australia and Vietnam for organic agriculture movement” (January 2019).
